

## Protect Your Fragile Skin

Limbkeepers® knit sleeves and gloves help protect fragile, thin, bruised skin on arms, legs and hands from abrasions and skin tears. Our products provide form fitting cushioned comfort without added bulk. They are designed to fit either limb - no left or right, seamless and no fasteners. The latex-free sports technology yarns we use provide moisture management and easy care. Made to look and feel like your everyday clothing,

**Limbkeepers® will preserve skin integrity, giving you confidence to continue an active lifestyle, no matter what your age.**

**Stop cutting up your socks,  
no more bulky layers,  
no more gauze or fleshy mesh**

### **"Necessity is the Mother of Invention"**

I am Deborah Vezan, the founder and president of **Limbkeepers®** products. During my 35 year career as an apparel executive in NY, I was also my elderly parents' care manager for 9 years.

When my two careers collided, **Limbkeepers®** became a necessary reality for my mother - there were no sleeve products in the marketplace to effectively protect her fragile skin. Inspired by my sport apparel, I brought my design ideas to an athletic sock factory in North Carolina. When the prototypes gave the protection she needed, I knew my sleeves would benefit others. Launched in 2013, this is the foundation from which I have created **Limbkeepers®** products.

*"I have tried many different brands in my years as a nurse. I have never found a cover for limbs that works until I found Limbkeepers."*

- Fran R, New Britain CT.

*"I ordered Limbkeepers to protect my forearms in my woodshop from bruises and scratches. They are great, very comfortable and you stay cool. Very well made."*

- Carl Z, Cape Coral FL.

*"Thank you for making such an amazing product that I can work out in and keep warm."*

- Kristie Lowell, US Team & World Champion gymnast.
